GRUESOME CRIME

Boston Authorities Investigating Shocking Murder.

HUSBAND IS UNDER ARREST

Body of Mrs. Honora Jordan, an Actress, Was Found in a Trunk and Later the Head and Bones of the Limbs in a Furnace.

Boston, Sept. 5.—But few points in connection with the horrible and gruesome murder in Greater Boston of Mrs. Honora Jordan, an actress, who was known on the stage as Irene Shannon, by her husband, Chester S. Jordan, remained to be cleared up by the police Friday.

The confession of the husband to the police following his arrest after the accidental discovery of the mutilated torso of his wife in a trunk at No. 7 Hancock street, this city, was believed to be a substantial recital of the incidents of the brutal crime, but several minor details of his confession conflicted.

Examination by Police.

As a result of his examination by the police, he disclosed all the apparently important facts in connection with the murder, and gave the information which led to the discovery of the thighs and scalped head of the murdered woman, the only parts not contained in the trunk at his home in Somerville. He also gave a plausible reason in a remark by his wife in which he says he was lured by her belief that he was unfaithful. Following her epithet he struck her, knocking her down a flight of stairs. He declared that from that moment until he awoke the next morning he has no recollection of anything. When he awoke he found the body lying at the foot of the stairs, the throat slashed from ear to ear. On this portion of his confession the police placed the least credence.

Claims Mental Derangement.

Attorney William S. Scharton, who has been procured for the defense of Jordan, by his brother in law, Jesse L. Livermore, the cotton market operator of New York, states that he already has evidence of Jordan's mental derangement several weeks before the murder, and in this case the murderer's insanity may account for some of the lapses in his confession, although as a whole it was remarkably clear.

When arraigned in police court Jordan pleaded not guilty to a charge of murder. The case was continued until Friday, Sept. 11, and Jordan was remanded to jail.

A Gruesome Crime.

This is said to be the most brutal crime committed in Greater Boston since the death of Susan M. Geary, a chorus girl, four years ago, and one much resembling it in its details.

The discovery of the torso of Mrs. Honora Jordan, an actress, of Somerville, in a trunk in a boarding house at No. 7 Hancock street, on Beacon Hill, this city, led to an investigation by the police.

Later the head and bones of the limbs were found in the furnace of the Jordan home at Somerville, and the scalp, hair and other gruesome remains were taken from the kitchen range of the house.

These gruesome discoveries and other evidence led to the arrest of the husband.

New York, Sept. 5.—A movement has been started to obtain the prompt release of Major Francis D. Walker, a Confederate veteran, from Blackwell's island, where he was sent recently as a vagrant for six months.

The homeless old man's commitment followed his application for a night's shelter at police station.

Thomas Murray, a member of U. S. Grant Post, G. A. R., became interested in the case and wrote to Edward Owen, the commander of the confederate camp in New York, saying that he and other Grand Army men from Brooklyn stood ready to help the old confederate veteran if it could be shown that he was deserving.

Mr. Owen then made an investigation and found that Major Walker appeared to be a southern gentleman who has outlived all relatives and friends and was thrown upon the charity of strangers.

It has been decided to have the old man transferred to an institution where he will receive medical attention, or if this is impossible, have the confederate camp care for him.

ALACHUA ITEMS.

(From The Alachua News.)

Mrs. R. A. Caswell left Wednesday for Live Oak, where she will visit her sister for several days.

Miss Eva Powell has been confined to her bed for the last several days with fever.

Col. F. Y. Smith made a flying trip to Gainesville Tuesday in his Reo. Flying is the word, as he returned in the record-breaking time of fifty minutes.

Dr. J. L. Cloud was called to Brevard, N. C., by a telegram from Mrs. Cloud stating that the baby was very ill. We trust our friend Doctor found his little boy much improved.

Miss Murray Cellon, after a very pleasant if short stay with her friend, Miss Margaret Olmstead, left for Gainesville to visit other friends, who no doubt were anxious to see her once again with them.

We regret very much to announce the long illness of Mr. and Mrs. S. J. Ellis' sweet little baby. Her condition for the last few days has been such as to cause great anxiety to the loving parents.

W. H. Traxler of Traxler has purchased from the First National Bank the very desirable lot joining Berry Brother's new drug store, for a high consideration. We understand Mr. Traxler will at once commence the erection of a business house.

J. S. Fagan has sold his home to a gentleman from Georgia, a Mr. Sparkman, who will soon move into his premises. The News welcomes the new addition to the town. We have been informed that Mr. Fagan will soon begin the building of a handsome residence upon one of his city lots.

Mr. Walter Sealey returned Tuesday from New York and other Eastern points, where he made large purchases for his several distributing stores. He also visited Niagara Falls, and it goes without saying that he was greatly impressed with the magnitude of the sight. While in New York he and some others of the party had some very fine tin-types taken, presumably at Coney Island, and Mr. Sealey can be seen trying to guide a high-power auto car.

The Men Exchanged Two Shots at
Each Other, When Friends Intervened,
Preventing Further Trouble.
The Result of Old Grudge.

Information reached this city Saturday of a shooting affray, which occurred at Worthington Springs Thursday between Deputy Sheriff I. C. Walker of this city and J. H. M. Kirby of Newberry.

It seems that there is an old grudge between the men, and that when they met at Worthington they decided to shoot it out. They were at a point between the postoffice and the hotel when the shooting took place, being about one hundred and fifty feet apart. Mr. Kirby used a shotgun while Deputy Sheriff Walker used a pistol, two shots being fired by each party, but none of the shots did any serious damage. At this point friends intervened, preventing further trouble. The bullets from the pistol lodged in the postoffice, while the charge from the shotgun struck the hotel.

A Traveling Man's Experience.

"I must tell you my experience on an East bound O. R. & N. R. R. train from Pendleton to LeGrande, Ore.," writes Sam A. Garber, a well-known traveling man. "I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said: 'There is a woman sick unto death in the car.' I once got up and went out, found her very ill with cramp colic; her hands and arms were drawn up so you could not straighten them, and with a death-like look on her face. Two or three ladies were working with her and giving her whiskey. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy (I never travel without it), ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into LeGrande, where I was to leave the train. I gave the bottle to the husband in case another dose should be needed, but by the time the train ran into LeGrande she was all right, and I received the thanks of every passenger in the car." BURTZ IN A NEW ROLE.

Has Accepted Appointment in Forestry Service, U. S. Government.

Jesse E. Burtz, who for a number of years has held the position of city editor of The Sun, has accepted an appointment in the Forestry Service, Department of Agriculture, United States Government.

The work of this department of the general government has reached such proportions that it now covers almost every section of the country, especially where the land is timbered. The object of the work is to ascertain as near as possible the amount of timber which remains standing, the condition of the timber, and the ratio at which the same is being consumed, both in the lumber and naval stores industries. While the work in the Southern States is comparatively new, there are now a number of men gathering statistics in this section of the country which will later be compiled to show the condition of the timber supply in these States.

The territory which will be assigned Mr. Burtz will extend through the naval stores belt of the South, and will probably reach as far West as Texas. The duties of the position will embrace the taking of statistics regarding various phases of the turpentine industry, the number of boxes cut, the condition of the timber, the output, and any other information which may be considered as connected with the business.

Mr. Burtz left Saturday for Jacksonville, where he will receive instructions, routes, etc., preparatory to assuming the duties of his new position, and while friends here will regret to lose him, they will nevertheless wish him well.

Geo. W. Livingston.

Deputy Sheriff Geo. W. Livingston of Newberry was in town yesterday and made The Sun an agreeable call. Being asked about what his latest information was regarding the recent murder of Mr. Moreland at High Springs, he replied that, unlike some other officers, he was not telling what he knew in this matter. Wherein he is wise. A good detective, as Livingston has proven himself to be, keeps his own counsel, instead of proclaiming from the housetops all he knows about the case he is investigating. Keep your eye on George Livingston in this particular case. He'll make good on it, if we are not mistaken.

Pleasant Birthday Party.

The hospitable home of Rev. and Mrs. S. B. Rogers was the scene of much gaiety Friday afternoon, the occasion being the celebration of the seventh anniversary of the birth of their bright little son, Wieland.

About thirty-five of the little folks of the city were present and merriest games appropriate to the event were indulged in, after which delicious refreshments were served, and the little guests repaired to their homes wishing for Master Wieland many happy returns of the day.

CUTTING SCRAPE AT NEWBERRY.

Two Negro Women Made Things Quite Lively for Awhile.

Deputy Sheriff George W. Livingston of Newberry arrived in Gainesville Saturday with a negro woman by the name of Mitchell Powell, who had been convicted in Justice Henderson's court for assault and battery and fined \$100 or six months in jail. Not having the ready money she decided to take the latter, hence her visit to Gainesville.

She and another negro woman got in a scrap over a man and Mitchell proceeded to cut Ella Harmon to suit her fancy.

DELICIOUS BANANA CREAM

This recipe is highly recommended by one of our correspondents: try it for dessert tomorrow.
Peel five large bananas, rub smooth with five teaspoonsful of sugar. Add one teaspoon cream beaten to a stiff froth, then add one tin package of Lemon JELL-O dissolved in its teaspoon boiling water. Pour into mold and when cold garnish with crushed cherries. Serve with whipped cream, or any good pudding sauce. JELL-O is sold by all grocers at 10c per package.

Those fellows who were so loud in advocating Bryan's nomination are not so awfully fast in sending in a dollar for his campaign fund as they should be. "By their works ye shall know them," or something to that effect, is a truthful saying of the good book.

The Board of County Commissioners will meet Monday, September 7th, for the hearing of any complaints which may come before them in reference to the recent increase in assessments in Alachua county. The board will meet at 9 o'clock in the morning.

The coming school term in Alachua county promises to eclipse all others. Superintendent Kelley is hard at work getting everything in shape for the opening of the various schools and says the attendance bids fair to be the largest since the inauguration of the public school system.

Alachua is undoubtedly leading many other counties in the construction of hard roads, but sufficient attention is not being paid to keeping these roads in repair after they are constructed. The Sun has called attention to this matter time and again, but the county commissioners turn a deaf ear to such matters. We again remind them, however, that it is a truthful saying that "a stitch in time saves nine."

Tom Lawson, the greatest living fakir, now predicts Taft's election by an immense majority. In view of Lawson's past predictions, such as wagers at great odds that Roosevelt would be renominated and elected, that certain stocks would advance to certain prices, etc., etc., his latest prediction that Taft will be elected is sufficient to cause cold chills to creep down the spinal chord of the most enthusiastic Republican.

The habit of playing baseball on the streets affords much amusement to the boys, no doubt, but it is exceedingly annoying and dangerous to pedestrians. Only the other day one of Gainesville's most esteemed and popular ladies came near being struck by a ball thrown by a young man, which would have undoubtedly caused serious injury to her. If we are not mistaken there is an ordinance against this practice, and the police should enforce it before some one is seriously injured.

The Sun is pleased to note that the fish and game wardens of several counties in South Florida, especially in Volusia county, are active in enforcing the laws regarding the taking of fish and killing game out of season. Now let the authorities of Alachua county become equally vigilant in this respect and in a few years there will be more game and fish in this section. Our lakes and streams have become exhausted of fish until sufficient are not now caught to supply the Gainesville market. The next Legislature should enact a law prohibiting the shipping of fresh water fish from beyond the State. In fact, we believe it would be wise to prohibit shipping them beyond the limits of the county in which they are taken. The present situation demands such action, though it may seem a hardship on some people.

"THE FLORIDA"

A late New York special says that it is likely that the present month will witness the laying of the keel of the Florida, the biggest and most powerful of the vessels of Uncle Sam's navy. The 20,000-ton leviathan of the seas will be constructed at the Brooklyn navy yard, and when completed will be the monarch of the United States navy, and the equal in fighting power and tonnage of any other ship afloat.

The contract to build the Florida was given to the local yard after one of the greatest campaigns was waged to force the Navy Department to let the workers of the Brooklyn navy yard build her. Boards of trade, Congressmen, Senators and everyone that could exert authority with the Washington officials were fighting night and day to get the battleship built here.

The argument of the experts in Washington was that private builders could construct a warship or any other kind of vessel cheaper and quicker than Government workers. At the time that all this was going on the collier Vestal was started at the navy yard. From Naval Constructor Baxter down to the humblest apprentice the feeling was rampant that the only thing to be done to have the ship built here was to show good results in the Vestal.

Now that the giant collier is finished and all records for quick and cheap construction are broken, the men at the navy yard are waiting with interest for the keel of the Florida to be laid. Although the building of a battleship is a greater task than the construction of a collier, the workers at the navy yard have no fear that they will not make as good a record on the Florida as they did on the Vestal, for they have also built the battleship Connecticut, now the pride of the navy.

The new fighting monster is so much larger than the Connecticut, the ways on which the latter was built will have to be lengthened a hundred feet. To do this, part of a storehouse will have to be razed, as there is not room for the extension on the landslide. After the building is razed, and the ways lengthened, they will be undermined, so that the railroad of the navy yard can pass beneath them.

Another interesting feature of the building of the new battleship is the fact that a new monster cantilever crane will be erected, so the steel and other material will be hauled to the workers nearly twice as fast as they were while the Vestal was being built. The crane is now in the course of construction, and will be ready soon after the Florida is started.

GALVESTON NEXT TO NEW YORK.

The Galveston News of September 1, a copy of which is on our desk, shows a large shipping business done at that port.

Galveston maintains its rank among the ports of the United States. It continues to stand next to the port of New York in the value of its foreign exports. It holds ninth place among ocean ports in the value of its foreign imports.

During the year 1907-08 1,544 ships, with a net tonnage of 3,776,212, entered and cleared at the port of Galveston.

This port is served by thirty regular lines in the foreign service. In addition to these regular lines many tramp steamers are chartered. There was an increase during the past year in the coast-wise service. Taken altogether the shipping facilities during the year were quite equal to the demand.

During the past year imports free of duty to the amount of \$4,179,964 were entered at Galveston. Imports dutiable amounted to \$1,515,335. The total value of foreign goods handled at Galveston during 1907-8 was \$7,407,698. Mexico stands first in the value of imports by countries, the amount being \$3,296,285. The United Kingdom is second, with a valuation of \$1,051,312. British East Indies are third, with a valuation of \$234,466.

LETTER TO C. R. LAYTON, Gainesville, Florida.

Dear Sir: Experience teaches some
people sometimes; it teaches a few
some things; it's a mighty slow school
though; that same experience.

Lots of people paint lead-and-oil
paint once in three years, and think
themselves wise; they are wasting
half their money and fuss. They're
so sure they are wise, they die as
they live, paint-foolish. Experience
teaches them nothing.

There's another set, who buy paint
by the gallon, and go by the price of
a gallon. They think one price is
high, and another is low; and they pay
about muddling; why don't they pay
low? They know that milk isn't
dear or cheap by the price of a quart;
that the milk has something to do
with it. They don't buy "cheap" milk;
but they buy "cheap" paint and pay
double. Experience teaches them
nothing.

There's another set. They painted
years ago, lead-and-oil; exhausted
that. Then tried something else; it
was better or worse. Then Devco;
it cost about half and wore twice as
long. That's how experience teaches
some of us. Yours truly,

F. W. DEVCO & CO.

Savannah, Ga., Sept. 5.—The market

little weakness was shown in the

THE WISE WOMAN

Always Makes Early Plans for Her
Fall Costumes.

The first need of the autumn for
most women, says The September
Delineator, is the tailored suit to re-
place the lightweight voile or pongee
that has been on duty all summer.
The new materials are already be-
ing shown, and there are some very
attractive versions of the wonderful
fabrics. The serges and panamas, it
goes without saying, will predominate.

There are two very decided types
of suit coats that will be worn dur-
ing the coming season—the Direc-
toire model that is favored by cer-
tain high-class tailors who follow the
lead of Paris, and the single-breasted,
semi-fitted, semi-long coat this is un-
questionably one of the most becom-
ing garments we have ever worn.

The long points on the hips atten-
uate the figure of the heavily built
woman and the Consul collar seems
to add to her height. On the slender
woman it is quite delightful and very
young-looking.

The second coat belongs to the type
that Fluffy Ruffles has made famous
from one coast to the other. Its lines
are so familiar to us all that it is not
necessary to describe them or to dwell
on the obvious good points of the
slim, graceful cut of the coat.

It has taken many months to settle
the mooted question of skirts with
any degree of definiteness. Paris lim-
its the plaited skirt to the trotter cos-
tume, and New York is slowly follow-
ing her lead. Everyone admitted that
the gored skirt was smart—smarter
than the plaited—but the latter was
so ingratiatingly pretty that the pub-
lic clung to it tenaciously. It is
hardly fair to speak of it in the past
tense, even now, for one sees every
variety of plaited skirt—triple plaits
at each gore, shallow plaits all
around the waist, the new plaited
skirt that is good for stripes and the
one with groups of plaits for border-
ed goods.

But we have at last realized the
finality of the Parisian mandate,
though it is hard to turn directly
from the plaited skirt to the gored—
the latter looks bare and untrimmed
to our uneducated eye. Therefore,
for buttons—for anything, in fact,
that will let us down gently to the
there is a constant demand for trim-
ming bands, for tucks in the bottom,
gored skirt. Some of the new gored
skirts are very pretty and smart.

Best Treatment for a Burn.

If for no other reason, Chamberlain's
Salve should be kept in every house-
hold on account of its great value in
the treatment of burns. It allays the
pain almost instantly, and unless the
injury is a severe one, heals the parts
without leaving a scar. This salve is
also unequalled for chapped hands,
sore nipples and diseases of the skin.
Price, 25 cents. For sale by all drug-
gists.

Nevius Heads G. A. R.

Toledo, O., Sept. 5.—Colonel Hen-
ry M. Nevius, of Red Bank, N. J.,
has been elected commander-in-chief
of the Grand Army of the Republic.
The election occurred on the first bal-
lot, which gave Mr. Nevius 454 votes,
compared with 254 for former Gov-
ernor Van Zant, of Minnesota, and 90 for
L. T. Dickason, of Illinois. On mo-
tion of the former Minnesota execu-
tive, the nomination of the New Jer-
sey man was made unanimous.

Ohio River Too Low to Navigate.

Gallipolis, O., Sept. 5.—Navigation
on the Ohio river is closed between
Pittsburg, Gallipolis and Cincinnati for
the first time in five years. The riv-
er is the lowest it has been for twenty
years. Fifteen million bushels of
coal are loaded ready to move on the
first rise for Cincinnati, Louisville and
southern points.

Tortured Political Prisoners.

Orpat, Russia, Sept. 5.—A seg-

the local prison have been convicted
of torturing political prisoners with
the idea of extorting confession, and
each sentenced to one year's imprison-
ment.

CARELESSNESS COST WHEELER HIS LIFE

Man Killed at Mill of A. T. Kelley & Co.
at Prairie Creek.

WAS STRUCK BY SWINGING SAW

Which Severed Left Arm at the Wrist,
Besides Otherwise Cutting and
Bruising the Man—Was Considered
a Good Worker.

Carelessness on the part of the man
cost Sam Wheeler, colored, his life
at the mill of A. T. Kelley & Com-
pany, at Prairie Creek, late Friday af-
ternoon.

Wheeler, who had been employed
at the mill for the past two years
or more, had charge of a swinging
saw, which is used in cutting logs
into blocks, and it seems that he re-
leased the lever connected with the
saw before the carriage had advanced
the proper distance for the saw to
perform its work, with the result that
his left arm was severed at the wrist,
the right hand considerably mangled,
and a severe gash inflicted upon the
right thigh. The saw, which was a
large one, was broken into bits, and
the man was precipitated into a pile
of blocks nearby, breaking his neck.
He lived only a few minutes after the
accident.

Wheeler was regarded as one of the
best workmen at the mill, and his
employers deeply regret the accident
which caused his death. He had had
charge of the saw for a year or more,
and this was the first accident that
has ever occurred in this section of
the mill.

Fire Threatens Snow Sheds.

San Francisco, Sept. 5.—According
to a dispatch received here from Sum-
mit, on the line of the Southern Pa-
cific in the Sierra Nevada mountains,
the snow sheds over the railroad are
threatened by a forest fire. The fire
is said to have burned over forty miles
in the last two days and to be headed
for the sheds which it should reach
in forty-eight hours, unless something
prevents its advance.

OUR WEEKLY LETTER FROM NEW YORK

Fall Modes Now Practically Deter-
mined—Silk, Velvet and Cloth All
of Soft, Supple Weave—Black
Popular in Paris—Outing Wear
for the Autumn Months.

BY MONS. GENE DE PONTAC.

If any one event may be said ac-
curately to forecast and decide fash-
ions for the ensuing months, it is
the Paris Grand Prix, and now that
this decisive occasion has come and
gone, modes for the fall may be said
to be authoritatively indicated, at
least. While the Directoire influ-
ence is still in evidence, it is still a
modified form that shuns the ex-
treme and the Empire or Princess
style—which means almost anything
so that the gown be in one piece,
with long clinging lines and short-
ened waist-line—is in the ascendant.
This means that the modish fall cos-
tume will be formed of the one-
piece gown with an accompanying
long coat.

The soft satin-finished silks are
still the favorite and many satin
coats are seen with crepe-de-Chine
gowns. Crepe-de-Chine will be one
of the most popular of materials, for
nothing drapes and clings more beau-
tifully and nothing shows off to such
effect the elaborate embroideries
which are still a notable feature of
all gowns beyond those of the strict-
ly tailored variety.

The new velvets are following the
silks in their lightness and suppleness,
and the velvet coat matching the
cloth or silk Empire gown, is
sure to be the favorite mode for the
Fall and Winter.

There is a strong revival of the
soft, clinging cashmeres, both for
scarves and for frocks, and it bids
fair to be one of the Fall's most

popular fabrics. Bordure effects are
seen in the new satins, the fancy
brocades have woven satins or
chevron stripes, and beautiful soft
blendings are shown in the plaid and
check suitings.

Gray is as popular as ever, but a
noteworthy feature is a distinct pre-
ference for black; which throughout
the Summer, with its rage for color,
has been somewhat in abeyance. All
black, however, is rarely seen, and in
Paris there is much use of gold, on
soft black—dull rich-looking gold,
not that with a bright, brassy finish.
Very smart restaurant gowns are
made of black mousseline trimmed
with a bit of gold embroidery, and a
pretty new idea is worked out by
narrow bands of colored ribbons
placed under the transparent yoke,
under the collar and under the
wrists of the long sleeves.

A combination of silk soutache
with silver or gold on ecru flut is a
new and effective trimming. Silver
adorns many evening gowns, and no
more delightful wear for a Summer
night could be devised than white
tulle flecked with silver. Silver is
also used about the transparent neck
and sleeves of high day-time frocks,
and silver and gold tissue, gold cord
and gold lace are much used on the
latest hats.

Blue serge has always taken first
place for the summer outing suit, but
for autumn the mixed woollens in
leaf and russet browns and stone
grays, often combined with touches
of soder green, are smart and ser-
viceable. These suits are tailored
strictly with an eye to comfort—
skirts moderately short, coats loose
and double-breasted with capacious
pockets. Soft brown leather coats
are also much worn, not only for

motoring but for general rough ser-
vice.

The smartest women in Paris are
almost universally using the white
Panama for motoring and all kinds
of outdoor sporting life—golf, ten-
nis or yachting. The Panama is
light and is not easily injured by
crushing, or by rain or dust. The
trimmings are usually pongee, linen
or veiling. A little later will come
the soft felt hats, which are already
shown in the shops, in the same
shapes as the Panamas, and in soft
shades of gray, tan and moleskin.
Jauntily trimmed with silk scarves,
wings or quills, they are equally suit-
able for early Fall street wear.

Killed Entering His Home.

Omaha, Neb., Sept. 4.—Dr. Fred-
erick T. Rustin, one of the best known
surgeons in the west, was shot and
killed as he was on the point of en-
tering his home early Wednesday
morning. Dr. Rustin had remained
out late for the election returns. A
single pistol ball had entered the ab-
domen. The first theory of the police
was that Rustin had committed sui-
cide, but as no pistol had been found,
the murder theory is now accepted.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of
Its Distinctiveness.

The ladies who have used Newbro's
Herpicide speak of it in the highest
terms, for its quick effect in cleansing
the scalp of dandruff and also for its ex-
cellence as a general hair-dressing. It
makes the scalp feel fresh and it allays
that itching which dandruff will cause.
Newbro's Herpicide effectively cures
dandruff, as it destroys the germ that
causes it. The same germ causes hair to
fall out, and later baldness; in killing it,
Herpicide stops falling hair and prevents
baldness. It is also an ideal hair dress-
ing, for it lends an aristocratic charm to
the hair that is quite distinctive. Sold
by leading druggists. Send 10c. in stamps
for sample to The Herpicide Co., De-
troit, Mich.

A REMOVAL

This is to notify the public that we
have removed our stock of Crockery,
China and Glassware from the Graham

This move will concentrate our busi-

into consideration these facts does it
not look reasonable that we will now
be in a position to sell this line at
greatly reduced prices? That's the
reason.

Come to our store, visit this de-

TWO WOMEN CREMATED.

Mother and Invalid Daughter Victims
of Flames.

Gadsden, Ala., Sept. 5.—The char-
red remains of Mrs. Elizabeth McNeal,
aged seventy-five years, and her in-
valid daughter in law, Mrs. Joe Mc-
Neal, aged fifty-five years, were
found Wednesday night at their home
on Lookout mountain, 8 miles north
of this city. They lost their lives in
a fire which burned their home
early in the evening.

From particulars learned here, it
appears that the fire originated from
a defective flue. The two women
were alone in the house at the time.
The younger woman was an invalid.
When found, the body of Mrs. Joe
McNeal was lying 8 feet out of the
fire line, at the walls of the house. A
portion of a chair was found beneath
her. The body of the elder woman
was found 16 feet from the house.

IT'S YOUR KIDNEYS

Don't Mistake the Cause of Your Troubles—A Gainesville Citizen Shows How to Cure Them.

Many people in Gainesville never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Gainesville people testify to permanent cures.

C. L. Kite, living at 804 E. Seminary street, Gainesville, Fla., says: "I think that a strain was the cause of kidney trouble in my case. I suffered from a dull, dragging pain in my back and this was always aggravated if I did any lifting or stooping. Although I had little faith in advertised medicines, I decided to give Doan's Kidney Pills a trial. I procured them at J. S. Bodiford & Co's. and am now very glad that I did so, for a short use entirely eradicated all signs of kidney disorder from my system."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

AERONAUT DASHED TO DEATH.

Fell 500 Feet in View of Thousands of Horrified Spectators.

Waterville, Me., Sept. 4.—In full view of 25,000 horrified spectators, assembled on the Central Maine fair grounds here Wednesday, Charles Oliver Jones, of Hammondsport, N. Y. aeronaut, fell a distance of 500 feet to his death. Among the witnesses of the frightful plunge were Mrs. Jones and child, and they were almost the first to reach the side of the dying man. Jones died an hour and a half after the accident.

The aeronaut made an ascension from the fair grounds on Wednesday afternoon, and when up about 500 feet the gas bag of the balloon in some way caught fire. When Jones discovered the fire he pulled the cord and endeavored to reach the earth, but he had hardly begun to descend when a burst of flames enveloped the gas bag and the aeronaut and the frame work of the balloon fell to the ground with terrific force.

Jones' spine was broken and he also sustained internal injuries which resulted in his death shortly afterward.

It is thought that the bag leaked and that a spark from the motor ignited the escaping gas and caused the disaster.

GEORGIA LEGISLATURE.

"Skiddoo" Bill Sent to the House for Consideration.

Atlanta, Sept. 5.—One of the developments of the Thursday morning session of the legislature was the passage in the house of the bill by Mr. Persons of Monroe, which inaugurates the convict parole system in Georgia. This was adopted by a vote of 133 to nothing.

The house also adopted, by a vote of 110 to 33, the resolution of Mr. Alexander, of DeKalb, providing for the appointment of a commission to investigate the feasibility and advisability of employing the state's convicts upon an extension of the Western and Atlantic railroad to the sea.

Substitute Passed by Senate.

At the morning session of the senate the "Skiddoo bill," as amended, was offered as a substitute to the Holder bill of the house, and passed by that body by a vote of 32 to 9. Upon motion of Senator Felder, it was transmitted immediately to the house of representatives. The senate held a session in the afternoon, but not a single thing was done.

The resolution passed by the house to appoint a committee to look into the feasibility of extending the Western and Atlantic railroad was read. A recess was taken, and after being called to order after thirty minutes' rest, another recess was taken. After being called to order a third time, on motion of Senator Dobbs the senate adjourned until Friday morning.

The Western and Atlantic railroad committee of the senate held a meeting and decided to recommend that the resolution passed by the house should be passed by the senate.

Blind Tigers Fined \$1,500.

Montgomery, Ala., Sept. 5.—In the county court house at Andalusia the past week over fifteen hundred dollars were assessed in fines and costs for blind tigers. The judge and the solicitor were joined by the best citizens of the county as jurors, and it was made plain that the new prohibition laws must be enforced. When a man fought his case and was convicted, the fine was \$200 to \$300, with costs; if a plea of guilty, with promise to stop, was entered, the amount was put at \$150.

S.S.S. CURES MALARIA

Malaria is due to impurities in the blood which destroy the rich, healthful qualities of the circulation, and reduce it to a weak, watery fluid. The body is then deprived of its necessary nourishment and strength, and is unable to resist the countless disorders that assail it, and the general system suffers in consequence. The appetite fails, digestion is weakened, chills and slight fever are frequent, while the sufferer loses energy and ambition. Boils, skin eruptions, and some times sores and ulcers follow when the blood becomes deeply polluted with the malarial germs. Both a tonic and blood purifier are needed to cure Malaria, and S. S. S. is best fitted for this work. It is the most perfect of all blood purifiers and at the same time an invigorating, healthful tonic. S. S. S. goes down into the circulation, and removes every trace of impurity or poison, and gives to the blood the health-sustaining qualities it needs. It cures Malaria thoroughly and permanently because it removes from the blood the germs and poisons which produce the disease, and while doing this tones up and strengthens every part of the system. Book with information about Malaria and any medical advice furnished free to all who write.

EVERY NON-PROGRESSIVE MERCHANT

BECOMES

Your Competitor

When You Cease to Advertise Aggressively

WHEN a merchant "slows up" in his advertising, and concludes to "save a little money" in that direction, then the merchant who never had the courage and foresight to advertise adequately BECOMES A REAL COMPETITOR. Even the merchant who never advertises at all reaps a certain amount of profit from the "slowing up" process of the live store.

Not many merchants, of course, who have at any time set the pace for progressive advertising, will be content to take a backward plunge into the company of the non-progressives, of the LITTLE MERCHANTS, the easily satisfied ones, the un-awakes! But that is just what the "live one" does when he imagines that his advertising is costing too much, and that its curtailment means "saving."

If business conditions ever suggest retrenchment in advertising, the wise merchant knows that this should be interpreted as a signal for "full speed ahead," for redoubled efforts to WIN the business that does not come so easily as usual.
